WORK EXPERIENCE

Università degli Studi di Padova Padova, Italy

Peer Tutor

10/2025 – 07/2026

As a Master's student, I facilitated optional group sessions for undergraduate students, guiding them through exercises in calculus, and assisted professor Salmaso in conducting lab sessions for Computer Systems.

EDUCATION AND TRAINING

01/10/2020 – 30/09/2024 Padova, Italy

Bachelor's degree in Statistica per le tecnologie e le scienze
Università degli studi di Padova

Projects:

- Implemented three approaches in Python to apply Strassen's Algorithm to matrices with odd dimensions.
- Analyzed course descriptions from all Bachelor's degrees at the University of Padua. The project included three phases: data scraping from university websites, data cleaning, and training models to predict each course's school based on its description.
- Developed an improved alternative to BM25 using a clustering-based approach combined with a k-NN algorithm.
